January 2015

Harnett Primary School

Harnett Primary School was awarded a Verizon Innovate Learning Grant of \$20,000. Harnett Primary School is one of 80 schools across the country and one of four in the State to receive this grant. The purpose of the grant is to provide teachers and the schools with the necessary resources to use technology more innovatively and effectively to engage students in science, technology, engineering and math.

With the money received, Harnett Primary will be implementing school wide engineering programs. The kindergarten and first-grade classes will work with Lego Robotics. The second- and third-graders will also work with robotics and be learning how to write and develop an app program.
